Re: Commission of Art Work for Downtown Granite City

I would like to propose a series of art works be commissioned for our downtown to enhance the theme of bringing the arts to Granite City . I have for many years been a freelance artist who has worked in wood, metals, slate and other materials of a natural origin to create original pieces of artwork. I would like to have the downtown committee, ,with my input, suggest a number of original arts works or practical pieces (ie benches) that I can create that would add to the beauty and aesthetics of our city.

I can show pictures of my artworks and I am very flexible and creative when it comes to any particular theme the city would like for me to create. I also propose that in lieu of actually being paid for these original works of art; that any monies would be used to help defray my present sewer bill. The scope and extent of this work would of course be solely determined by the Mayor and the city council. I see this as a win-win for myself and the city. This would help me to meet my obligation and also enhance the beauty of our city.

In conclusion, thank you for your time and consideration. I appreciate the opportunity to present this proposal and hope you will approve my plan.

Respectfully yours,

John Werner
